Monthly Newsletter - June, 2021

Overall Construction Progress of CASA - 1000

The Afghanistan portion of CASA - 1000 starts from Afghanistan-Tajikistan border (Sher Khan Bandar) and ends in Torkham, Pakistan. The CASA - 1000 project is divided into three LoTs in Afghanistan namely LoT 1 (Kunduz, Baghlan), LoT 2 (Baghlan, Panjshir, Kapisa) and Lot 3 (Kabul, Laghman, Nangrahar). The overall project progress is over 71 percent by end of June, 2021.

Lot - 1: The starting point of Lot - 1 is Afghanistan-Tajikistan border (Sher Khan Bandar) and terminates in Deh-e Salah district in Baghlan province. This section traverses through two provinces (Kunduz and Baghlan), and its length is about 197.5 km. It consists of 564 towers. The overall project progress in Lot - 1 is 80 percent by end of June 2021.

Lot - 2: The starting point of Lot 2 is Deh-Salah district in Baghlan province and terminates in Tagab district, Kapisa province. This section traverses through three provinces (Baghlan, Panjshir and Kapisa), and its length is about 189.33 km. It consists of 588 towers. The overall project progress in Lot - 2 is 64 percent. Read more about lot - 3 at the bottom of this page...

Grid Extension Project in Fazal Muhammad Kalai

A grid extension project is ongoing with %62 physical progress in Fazal Muhammad village of Qarghaee district, Laghman province under the Community Support Program of CASA - 1000 (CASA-CSP).

Fazal Mohammad village, which is located a few kilometers from Mehtarlam, the capital of Laghman province in Qarghahi district, is one of the villages located on the CASA - 1000 project route, and its residents have chosen the grid extension project as their preferred project.

The Fazl Mohammad Community Development Council (CDC) project includes an extension of 20 kV of grid extension, which will benefit 408 residents from 68 households. The project, which is now underway at a tune of around 1,679,379 afghanis, with its completion necessary access to electricity facilities will be provided to community residents. The CASA-CSP is being implemented by the Ministry of Rural Rehabilitation and Development (MRRD) to attract communities' support for the successful implementation of CASA - 1000.

CASA-CSP is supported by the Afghanistan Reconstruction Trust Fund (ARTF), a multidonor trust fund managed by the World Bank.

Construction of a Protection Wall is Ongoing in Nangrahar

The construction of a protection wall project is ongoing in Shergar Community Development Council (CDC), Kama district of Nangrahar province through the CASA1000- Community Support Program (CASA-CSP) under the umbrella of the Ministry of Rural Rehabilitation and Development (MRRD).

At a tune of over AFN 5 million and 175 thousand, the 710 meters long protection wall project is being implemented through the Community Development Council (CDC) under CASA-CSP to gain the support of the people for the successful implementation of CASA1000-. During the implementation of the project 4,535 labor days are created for skilled and unskilled labors. Furthermore, 470 households will benefit from the facilities of the sub-project. It's to be noted that, 30 sub-projects are approved for Community Development Councils in Kama district under the CASA-CSP which will be completed in the near future.

The CASA-CSP which is supported by the Afghanistan Reconstruction Trust Fund (ARTF) is being implemented by the Ministry of Rural Rehabilitation and Development (MRRD) to attract communities' support for the successful implementation of CASA - 1000.

...Lot - 3: The starting point of Lot - 3 is Tagab district in Kapisa province and terminates in Torkham, Pakistan. This section traverses through three provinces (Kabul, Laghman and Nangrahar), and its length is about 190 km. It consists of 485 towers. The overall project progress in Lot - 3 is over 69 percent by end of June, 2021.
